Post-Secondary Options

An informational session is scheduled for Monday, October 16 from 5:30-6:30. Representatives from DMACC, Project Search, and Iowa Job Corp will be present to discuss post-secondary program options for individuals with IEP services.

DMACC

Lead STRIVE Instructor, Mike Each, will discuss programs available at DMACC. He will have information on Strive Academy, Strive (college course work), and general information on seeking out needed assistance. He will explain how the programs are different, application processes, and what to expect when entering.

Project Search

DMACC Project Search Manager, Beatrice Wilson, will discuss the DMACC based Project Search. She will share program goals, population served, application process, and skills taught within.

Iowa Job Corp

Outreach and Admissions Advisor, Drew Emerson, will be discussing Job Corp. He will address overall program highlights, services available, areas of study, and locations.

This is an excellent opportunity to learn more about post-secondary options available. It is never too early to start planning! I look forward to seeing everyone on this Monday night.
