

BROS

BOYS REACHING FOR OPPORTUNITIES IN SCIENCE

DES MOINES UNIVERSITY

MEDICINE & HEALTH SCIENCES

The Des Moines University Pediatrics Club and Community Relations Department invite boys in grades 4-7 to Boys Reaching for Opportunity in Science, a FREE morning event designed to inspire students to consider careers in health care and science and to expose them to fascinating aspects of these careers. Boys will experience a variety of engaging, hands-on sessions led by DMU students:

ANATOMY // See how things like smoking can hurt our lungs and understand how a brain works.

MICROBIOLOGY // Use a microscope and get a close look at the bacteria that cause common illnesses.

PODIATRY // We'll look at the structure of the foot and participate in a casting activity.

PHYSICAL THERAPY // Get moving and see how the body system responds.

SPORTS MEDICINE // Discover how to care for athletes before, during, and after games.

SURGERY // Learn how to scrub in for surgery and put on surgical gowns and gloves in our mock operating room.

SATURDAY, MARCH 4, 2023

7:30 a.m. - 11:30 a.m.

Des Moines University Olsen Center
